Charlie: Thanks for calling me back last week. Attached is the information Senator Tester's staffer in Butte received. Sara Sparks and Nikia Greene can help with a general response regarding the clean up action level and how Butte-Silver Bow County does compare blood lead levels to the new CDC advisory. Dan Strausbaugh suggested that you may have additional updates on how the national Lead Work Group is developing guidance to address the CDC advisory. If we are not prepared to say anything that is fine.

BTW, I did call Erik Nylund last Friday and let him know I was coordinating an EPA response and would be getting back to him.

Hi Julie,

My boss got a long list of issues from Dr. Ray he wanted me to follow up on. This is one. I'd appreciate an update on EPA's position.

Thanks,

Erik Nylund
Natural Resources Liaison
Senator Jon Tester

You mentioned that you would be looking into the lead action levels in Butte.

I have attached a short document I prepared about this issue.

John Ray
